Statement on the AIRC Certification Commission Investigation of
Beijing New Oriental Vision Overseas Consulting Company

The AIRC Certification Commission has completed its investigation arising from certain news articles published by Reuters, which asserted that individuals in the employ or agents of BNOVO engaged in conduct that could be deemed to constitute a violation of AIRC's Standards. Based upon inquiries submitted to and information, documentation and responses received from BNOVO, the Commission has determined that with regard to the matters reported by Reuters BNOVO's operational procedures, rules, regulations and employee training are appropriate, and that they are properly and consistently applied. The Commission has therefore determined that there does not appear to be any probative evidence that BNOVO failed to comply with the applicable AIRC Certification Standards. The Commission has requested that BNOVO provide certain reports prior to its next recertification review, which is scheduled for July, 2018.
